

Amendments to the Specification:

Please replace the paragraphs beginning at page 12, line 25, with the following redlined paragraphs:

Figure 1 shows the nucleotide sequences of the coding regions of human ANT1 (“ANT1m”), human ANT2 (“ANT2m”) and human ANT3 (“ANT3m”). These sequences are provided in SEQ ID NOs:1, 2 and 3, respectively. Figure 1A shows the nucleotide sequences of residues 1-477 of ANT1m, residues 1-480 of ANT2m and residues 1-480 of ANT3m. Figure 1B shows the nucleotide sequences of residues 478-894 of ANT1m, residues 481-897 of ANT2m and residues 481-897 of ANT3m.

Figure 2 shows the polypeptide sequences of human ANT1 (“ANT1p”), human ANT2 (“ANT2p”) and human ANT3 (“ANT3p”). These sequences are provided in SEQ ID NOs:31, 32 and 33, respectively.
